OBJECTIVE:

Motivated MCA graduate seeking a software development role to apply programming skills, solve real-world problems, and grow professionally while contributing value to the organization. I bring strong problem-solving skills, adaptability, teamwork, and flexibility to any role I take on.

EDUCATION:

- Master of Computer Application (MCA) | P. R. Pote Patil College of Engineering and Management, Amravati | Pursuing | First Year: 64.3%
- B.Sc. (Biology + Computer Applications (CPV)) | Sant Gadge Baba Amravati University, Amravati | 2020-2023 | 79.08%
- Higher Secondary (12th) | Govt. Vidarbha Institute of Science and Humanity, Amravati | 2018-2020 | 60.15%
- Secondary School (10th) | Holy Cross Marathi High School, Amravati | 2018 | 66.40%

TECHNICAL SKILLS:

- Languages: Python
- Web Technologies: HTML, CSS, JavaScript, TypeScript
- Databases: MySQL, MongoDB
- Frameworks: Flask, Node.js, Express.js
- Tools: VS Code, Microsoft Excel
- Version Control: Git, GitHub
- Data Visualization: Power BI, Tableau

PROJECTS:

- **AmWell - Virtual Healthcare Assistant | GitHub | Demo**
  - **Technologies**: Node.js, Express.js, MongoDB, Socket.IO, Geolocation API, GenAI API
  - AmWell is an AI and GPS-powered healthcare app that handles 500+ real-time requests for patient data, ambulance tracking, and chatbot support with <200ms response time.
- **Weather Dashboard | GitHub**
  - **Technologies:** Node.js, Express.js, MongoDB, OpenWeather API, HTML, CSS, JavaScript, and Bootstrap 5
  - Developed a full-stack weather dashboard using the MERN stack to fetch and store real-time weather data.
- **Melody - Virtual Assistant | GitHub**
  - **Technologies:** Python, PyAudio, SpeechRecognition, Text-to-Speech(TSS)
  - Developed a Python-based voice assistant application leveraging speech recognition and text-to-speech technologies to process and execute user commands.
- **BrewHub – Cafe_Management_System | GitHub**
  - **Technologies:** Python, Flask, MySQL, Node.js, npm
  - A web-based application for managing cafe operations, including menu management, point-of-sale (POS) system, inventory tracking, and reporting.
- **Guess-the-Number Game | GitHub**
  - **Technologies:** Python, HTML5, Tailwind CSS, JavaScript
  - Built an interactive number guessing game with a Python backend and web-based frontend

INTERNSHIPS:

- Python Full Stack Developer Intern – Eduskill | Oct – Dec 2024

CERTIFICATIONS and ACHIEVEMENTS:

- Frontend Web Development with React.js and JavaScript | GDSC KIIT Chapter – DevTown
- Data Analytics Job Simulation – Deloitte
- 5-Star Gold Badge in Python - HackerRank
- Department-Level Project Winner - AmWell
- Personality and Soft Skills Certification

LANGUAGES: English, Hindi, Marathi
